THANK YOU FOR YOUR PURCHASE

Attic Stair Covers available in 2 sizes (22x54 & 25x54) and 3 levels of insulation

Add insulation to maximize the benefits of your stair cover

GOOD

Basic Attic Stair Cover Kit includes stair cover and gasket. This kit covers and seals your attic stairs stopping air leaks and drafts. Add your own insulation if desired. (insulation not included)

BETTER

Add our Reflective Insulation Kit to your stair cover. This slips over the stair cover and provides an insulating shield that reflects away heat. The kit provides a 16" deep air space between stair cover and shield to add your own insulation (insulation not included). Preferred by contractors!

BEST

Add our R-50 Reflective Insulation Kit to your stair cover. This is our most popular kit and comes complete with 16" thick R-50 fiberglass insulation and reflective shield - everything you need to maximize the benefits of your stair cover! Our "Ultimate Kit" installs in minutes with no tools needed!
